

MINUTES-DRAFT
LYNX-MEETING, 20.3.2006, Haslach
done by T.Engleder

participants:

Manfred Wölfl, woelfl@i3c.com
Jaroslav Cervený, jardacervený@centrum.cz
Horst Burghart, horstburghart@aol.com
Tomas Lorenc, thomas.lorenc@npsumava.cz, lorenc@fle.czu.cz
Tereza Adamova, tereza_adamova@nature.cz
Karl Zimmerhackl, oenj.haslach@utanet.at
Thomas Engleder, tho.mas@gmx.at

excused:

Ludek Bufka, ludek.bufka@npsumava.cz
Martin Forstner, wwn.forstner@utanet.at

this minutes should also be sent to:

Peter Urban, urban@sopsr.sk
Petra Nova, petra_nova@nature.cz
Mr. Paule, paule@vsld.tuzvo.sk
Michal Adamec, adamec@sopsr.sk
J. Kornan, jkornan@sopsr.sk
Mrs. Vavrova, vavrova@sopsr.sk

1) CELTIC

*What about news concerning the lynx-meeting in april/may 2006 at the czech-slovak border.
Will it take place? Date/location?
Input by us?*

Should be on Slovak side of Beskidy Mts.
→ possible location: Varin, NP Mala Fatra, SK
→ possible dates:
13. – 15. 10.2006
20. – 22. 10.2006
27. – 28.10.2006 (new date, asked by Tereza Adamova)
→ → details should be specified with Mr. Urban

What do we present there?

Lynx-database (last 10 years until 2005) ... (CZ, SK, D, A, H, PL)
large carnivores-cooperation

2) LYNX-GIS BOHEMIAN FOREST

*Last meeting we agreed to test a synthesis of the different national grids with data of the year 2000.
The aim was to test this until dezember 2005 and to have a commun lynx-gis with the lynx-datas from
about 1995 - 2004 until our meeting in march 2006 for discussion. And to have input for the celtic-
meeting in april/mai 2006. This sould be done! Are there any problems?*

As agreed, the data only will be used to make a common discussion-base for our group, to extract more information from our references and to have a common map for the whole population.

- + czech side will send data until next week – already done (Thank you Tereza!)
- + bavarian side will manage internal data-politics and will send lynx data (1995-2005) as soon as possible – last: end of may 2006!!!
- + data from Waldviertel by Martin Forstner for the year 2005 should be sent as soon as possible
- + austrian side will update database (with data from 2005) until may 2006

- + join all data from CZ, D, A (1995 – 2005)
- + discuss the data-base --- preinterpretation first (at the lynx-meeting in Arbesbach, June 2006)

3) NEWS from WALDVIERTEL

What is the status, what are the plans concerning lynx?

sorry, Martin was ill

4) TELEMETRY

News and plans ... Nationalpark Bayerischer Wald

1 lynx with transmitter from march 2005, recache november 2005

18 roedeers + 12 = 30 in total

aim: there should be 3 lynx with transmitter

transmitted: 1 position a day average

Milan 5 weeks without roedeer-kill

350 g should have the new transmitters

News and plans ... Naturpark Bayerischer Wald

plan to cache in the Vorderer Bayerischer Wald and at Kaitesberg (despersal of juvenil)

permit for 2 lynx

News and plans ... NPS

3 radiotelemetry-transmitters, 1 gps-transmitt. are planed but no cached lynx this season

no other signal yet

observations of lynx with transmitter on bavarian and czech side ... but no signal ... cache and remove transmitter should be done

more cached and killed red-deer by lynx in the nationalparcs

no total consuming of kills by lynx

fresh lynx-kill without head (new observation)

... perhaps there will be lynx-telemetry in the austrian alps (NP Kalkalpen?!) done by SCALP (Anja Jobin-Molinari, ... perhaps also powered by WWF Austria – N.Gerstl)

What are the aims of the lynx-telemetry in Bohemian Forest Mts?

Are there any synergie-effects that can be used better?

Can there be more cooperation?

???

Any news of moos-telemetry at Sv.Tomas planed by NPS in cooperation with LCR?

still in planing

5) PUBLICATIONS

+ Acta theriologica update? Would be good to make concrete steps! Therefore we need commun lynx-gis as basis!

backbone should be the data-base (!!)
– compare old and new method
draft should be done before the summer-brake (legal, management, perspectives)
managementplan in CZ is finished but still in discussion (will be published this year)
local people

+ conventional radiotelemetry? - Manfred & Ludek --- any concrete steps done?
jaroslav, manfred, ludko

+ Kittens? Always on our agenda! Any concrete steps done? New ideas?
should be done!

+ lynx-group-flyer must be improved and mailed as pdf (Thomas) - in progress!

6) HIGHWAYS for LYNX

espacially concerning the new highway from Linz to C.Budejovice

What is the planning-status in CZ, A?

Can we bring in our knowledge to road-constructors/planners/government? How?

Statement from Austrian side (T.Engleder, Hunters) concerning Lynx et al was done in 2006 as base for the Umweltverträglichkeitsprüfung. To build a green-bridge between Freistadt and A-CZ-Border is discussed.

Planingstatus of the highway in CZ? Perhaps ask Vaclav Polak and others? Ask also at Praha!

7) LYNX & HUMANS

What can we do to improve lynx-acceptance and decrease illegal killings?

Any new ideas?

Do we need therefore new scientific research? What kind of research? Who? Do we have connections to Universities, Departments, Organisations, Persons who can do such a study -- with practicable comments for a "better world for humans & lynx".

DUHA activity (antipoaching-propaganda)

managementplan – local people/government interaction – outsourcing to DUHA

life+ (2007-2013) focus on the humans – CZ (J.Blaha)

BY – more contact to the hunters – have the hunters as partners – responsibility – jointventure with the hunters.

monitoring – hunters – problems – money?

Get money for lynx-reproduction?!

How to support hunters in lynx-areas?

Who controls the monitoring?

Teaching in schools / young hunters.

life+

agricultural-, forestschools

8) COOPERATIONS

How can we improve our cooperations within the lynx-group? What do we need therefore?

Life+ (commun project)

9) WOLF

status, any news?

unsure reference on Austrian side near Freistadt (doubt)

no reference in South-Bohemia

unsure references in BY

10) FURTHER THINGS

there was a letter from bavarian gov. side concerning lynx to NPS

Jaroslav send name

11) NEXT MEETING

26.6.2006 (better), Arbesbach, A

3.7.2006

Martin Forstner suggested a overnight-stay in Arbesbach (in a Forest-House there)

perhaps: beginning at 26.6.2006 (or 25.6.), 16:00 --- end: 27.6.2006 (or 26.6.), 12:00
